The Silent Witness Initiative is a traveling memorial of life sized red silhouettes honoring the lives of women, men and children murdered in acts of domestic violence. The project began in Minnesota in 1990 by a core group of passionate women who were motivated to eliminate domestic violence in their communities. The *Silent Witness Initiative* has chapters in all 50 states, in 23 countries, and on hundreds of college campuses throughout the world.

Empowering Families to Build Lives Free of Domestic and Sexual Violence.
