

2022 Silent Witness Project Stories

These names stand out as “Silent Witnesses” in the state of Arkansas to the dangers of domestic abuse and the impact it can have on families, communities, and our state. Each of these individuals was killed by someone who should have loved and cared for them instead.

The Northwest Arkansas Women’s Shelter uses a list compiled and provided by the [Arkansas Coalition Against Domestic Violence](#) for the names and details to recognize those who were killed. We do additional research (as information is available) to add to each individual’s story, as we believe it is more important to honor the person who was killed than to share the details of how they were killed or the person who killed them. Red, life-sized silhouettes bearing these names and stories will be located at businesses and other organizations throughout Northwest Arkansas throughout the month of October. Each day we will also share stories at noon on our [Facebook](#) and [Instagram](#) pages.

According to the ACADV, there were 42 deaths in 2021 (23 Women, 14 Men, 5 Children), with 21 of those being intimate partner violence related deaths.
